**CHECK OUT IS STRICTLY  
12 NOON – NO LATE STAYS**

Hello and welcome to Fox Wood,

We want you to enjoy our stay here and would like to make sure you have a quick look over the following and please advise all member of your group to do the same.

Please remember to display your car tag so we know you're registered with us at reception.

This site is completely off-grid.

- We have no mains electricity
- We have no mains water
- We have no mains drainage

We run a generator at peak times only to power lights and provide water pressure for the showers.

Take the time to read through the fire safety advice sheet and be particularly mindful with children around fires. We have orange fire buckets available to purchase for £2 which you can fill with water and put by your fire. We do advise taking one, but the choice is yours.

You must not break branches from the trees or collect firewood within the forest as the dead wood provides a natural habitat for many creatures. Burning of any wild wood will not be tolerated.

**You will be asked to leave immediately without refund if you are found burning any forest dead wood.**

There is a toilet block (with composting toilets) in the big grey building near the front entrance.

There is no hot water in this building and the tap water is drinkable.

Boys **MUST** sit down when using the loo.

There are 2 family and 6 single showers in the wooden timber clad building, which are available at peak times.

**Peak times are: Morning 8-11 and Afternoon/Evening 5-11.**

Please note - these showers do not work outside these times.

There is a washing up room in the cabin next to the showers with 3 sinks and hot water again at peak time, but you can get cold water for the rest of the time.

There is an outside tap for filling water bottles next to the washing up room.

But, all water taps can be used for drinking water.

Question or problem?..... Contact Ian or Sarah on 07900 017 514. We're here to help.
